To whom it may concern:

I would like to share my recent experience with CopyWatch Incorporated with you. It is important for me to do this because of the savings they have provided to our organization.

Matt Smith and his team have generated tremendous cost savings for our organization. They performed a comprehensive audit of our existing copier usage, spent a countless amount of time reviewing their findings with us and developed a customized program for our organization. They were with us throughout the entire bid process and implementation of the new program.

There are many consultant organizations that provide services with a catch. With CopyWatch, there is no catch. It lives up to its promises. CopyWatch is a company with professionals who have inside knowledge of the industry. There was no allegiance to any copier company or sales person.

It is without hesitation that I recommend CopyWatch if you are interested in saving money and streamlining your copier program. You will benefit from their service.

Sincerely,
